

# RESEARCH PARK

## ABOUT US

Envisioned as a high energy workspace that naturally encourages innovative thinking and collaboration, the IIT Gandhinagar Research Park (IITGNRP) is much more than a physical space. Seeking to foster a creative and productive interplay between the industry and academia, the IITGNRP aims to help push the boundaries of innovation and research thus creating value for the Industry and adding to the knowledge bank. The Research Park was established in 2017 as a section 8 not-for-profit company to achieve the above goals. 8 companies have already joined the Research Park.

Industries can set up their offices at IIT Gandhinagar Research Park to carry out R&D activities. These industry members will become part of a vibrant community with access to world-leading faculty, experienced R&D professionals, a creative community of talented students and state-of-the-art R&D Laboratories infrastructure at IIT Gandhinagar. The other services at IITGN RP include help with IP Management and Licensing as well as establishing linkages with industries in the region.
